

## **JOB SPECIFICATION**

JOB TITLE: European Gas Reporter  
REPORTS TO: Bureau Chief  
DIRECT REPORTS: None  
DEPARTMENT: Editorial  
LOCATION: London, UK – Hybrid

This role will be based entirely remotely to begin with, leading to a hybrid working model. The candidate needs to be based within easy commuting distance from London for optimal collaboration and communication with immediate colleagues, and must have the right to work in the UK.

## **COMPANY**

Energy Intelligence is an independent provider of energy and geopolitical insights, analysis, data and research. The company's reputation has been built on uncompromised independent analysis from access to primary sources of information and data. The Information Services, Data Analytics and Research & Advisory teams provide a unique platform and an integrated approach, which equips clients with differentiated value-added services vital to those in the energy industry. With over 60 years of expert energy coverage, Energy Intelligence is the standard to navigating today's obstacles and taking advantage of tomorrow's opportunities.

Energy Intelligence has offices in eight locations around the world: London, New York, Washington, Houston, Dubai, Beirut, Singapore and Moscow.

## **OVERVIEW**

Energy Intelligence is seeking an experienced reporter to produce original news and analysis on the European natural gas sector and related economic and political developments for a range of Energy Intelligence publications. We are looking for a resourceful and energetic journalist with strong experience of covering European natural gas markets. The candidate should also be able to work independently with little supervision, and to find and develop original news and feature story ideas that will help differentiate Energy Intelligence from its competitors. The role includes some editing responsibilities.

## **KEY RESPONSIBILITIES**

- Work as part of global team covering natural gas in Europe, with a focus on European pipeline natural gas dynamics and pricing trends.
- Write forward-looking features and insightful analysis on a range of topics, including the role of gas in the energy transition, supply contract strategies and trends, supply/demand fundamentals, EU policy and regulations, among others;
- Cultivate productive relationships with European gas buyers, sellers, traders and regulators to add depth and insight about market trends;

- Write and manage daily European gas news coverage for Energy Intelligence's daily publications;
- Provide regular editing assistance to the editor of our weekly gas publication, World Gas Intelligence, including filling in as the primary editor as needed to cover holidays or absences.
- Compile and analyze proprietary European gas data for daily and weekly coverage
- Work collaboratively to compile accurate and timely market reports;
- Act as a subject matter expert in conferences, webinars, podcasts and videos.

As part of a growing and dynamic team, you may also be required to carry out any other duties that may reasonably be required of you.

**Some travel required.**

### **SKILLS/EXPERIENCE**

- 3+ years' Experience of energy commodity market reporting, preferably covering the European natural gas market.
- Comprehensive understanding of natural gas and financial terminology and concepts;
- A proven track record of breaking news;
- Strong analytical skills to gather information and spot and explain important trends;
- A love for primary source reporting;
- Excellent writing skills;
- Experience in formulating price assessments preferred;
- Willingness to engage directly with clients on natural market issues in a confident and professional manner;
- The ability to prioritize and deliver daily, weekly and long-term assignments;
- Knowledge of a second language an advantage;
- Bachelor's degree or other relevant professional training/diploma or equivalent experience

This job description is not exhaustive and may be updated to reflect relevant changes in line with business requirements.

*Energy Intelligence is an Equal Opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, disability or protected veteran status. Energy Intelligence will not discharge or in any manner discriminate against applicants or employees because they have enquired about, discussed, or disclosed their own pay or the pay of another applicant or employee.
