

## **JOB SPECIFICATION**

JOB TITLE:	Nuclear Fuel Market Reporter
REPORTS TO:	Bureau Chief
DIRECT REPORTS:	None
DEPARTMENT:	Editorial
LOCATION:	Preferably Washington, DC, U.S.A. or London, UK
CONTRACT TERMS:	Hybrid Working 2 to 3 days per week in the office. Full-Time, Permanent The candidate must have the right to work in the U.S.A. or the UK.

## **COMPANY**

Energy Intelligence is an independent provider of energy and geopolitical insights, data and research. The company's reputation is built on uncompromised independent analysis, backed by our access to primary sources of information and data. The news, analysis, data and research teams provide a unique platform and an integrated approach, which gives clients differentiated insights and information that they cannot find with other providers. With over 70 years of expert energy coverage, Energy Intelligence continues to show clients how to navigate today's obstacles and take advantage of tomorrow's opportunities.

Energy Intelligence has offices in eight locations around the world: London, New York, Washington, Houston, Dubai, Beirut, Singapore and Moscow.

## **OVERVIEW**

The vacancy is for an early career reporter based in our Washington, DC or London office. The reporter will report on nuclear energy issues across Energy Intelligence publications, but will primarily report and write Nuclear Intelligence Weekly, with a focus on the nuclear fuel cycle and the nuclear fuel market. Over time there will be opportunities for broader coverage beyond this, including reactor operations, newbuilds, financing, advanced reactors, nuclear power's role in the energy transition, nuclear waste policies and non-proliferation. As the reporter builds out their expertise, they will have the opportunity to act as an Energy Intelligence subject matter expert during client meetings, conferences, webinars, podcasts, videos and media appearances.

The ideal candidate has one or more years of reporting experience covering energy and/or commodities, or equivalent related experience.

## **KEY RESPONSIBILITIES**

- Work as part of global team covering all aspects of nuclear energy with a focus on uranium markets and nuclear fuel production and trade.
- Report on nuclear fuel cycle developments, with a market-oriented focus on the front-end of the nuclear fuel cycle, including uranium mining, conversion services, enrichment and fuel fabrication;
- Oversee implementation of the proprietary Uranium Price Panel, which provides a snapshot of the weekly uranium spot price;
- Cultivate productive relationships with nuclear fuel producers, traders, buyers, transporters and regulators around the world;

- Write forward-looking analysis of the shifting global nuclear energy sector, including energy politics, corporate strategy, nuclear safety and security oversight, financing of new nuclear projects, and policies for nuclear decommissioning and high-level radioactive waste;
- Occasional editing assistance as required

As part of a growing and dynamic team, the reporter may also be required to carry out any other duties that may reasonably be required of them. Some travel will be required.

#### **SKILLS/EXPERIENCE**

- Excellent writing skills, including the ability to explain complex subjects in accessible prose;
- A proven track record of breaking news;
- The ability to prioritize and deliver daily, weekly and long-term assignments on time;
- Familiarity with Excel, and the ability to create tables and graphs;
- A sound knowledge of energy policy and fundamentals, geopolitics, and a basic understanding of the nuclear energy sector is a plus;
- Strong analytical skills to gather information and spot and explain important trends;
- A dedication to primary source reporting, and the ability to develop direct contacts with key decision makers;
- Ability to travel to other cities and countries to attend conferences, industry events, and sites visits, with associated overnight stays;
- Bachelor's degree or other relevant professional training/diploma or equivalent experience
- Knowledge of a second language is a plus;
- Multimedia experience an advantage

This job description is not exhaustive and may be updated to reflect relevant changes in line with business requirements.

*Energy Intelligence is an Equal Opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, disability or protected veteran status.
